

Mid-Peninsula Brain Injury Peer Support Group

Our goal is to support individuals with brain injury and post concussion syndrome in the mid-peninsula community. We host meetings and social activities to provide opportunities for individuals & caregivers to connect and learn from one another.

If you are interested in attending please call us at 650-319-6110 or email us at stanfordbraininjury@gmail.com.

About The Leadership

Alissa Totman and Jaclyn Konopka are medical students at Stanford University. As undergraduates they ran a brain injury support group for the Boston community called MIT BrainTrust and are now very excited to bring peer support to individuals with brain injury in the mid-peninsula with the help of the Stanford undergraduate leadership team.
